## REFLECTING ON MY COURSE INTERESTS

Once you have selected the courses that interest you, reflect on which subjects attracted you the most and why. Also include how reading the course descriptions influenced your interest. Last, explain how selecting your own courses was valuable to you and include which courses you are eager to learn more about. You may use this sheet as a guide to record your reflection in video, art, or presentation form or you can write it below. Use the art box to illustrate if you like.
